## ABOUT GSTCE

### 17 YEARS OF COMMERCIAL IMPACT

The Global Space Technology Convention & Exhibition (GSTCE) is THE premier go-to platform for the world's space and satellite business. As the most established space show in Asia, it unites the world of space, unlocking new insights and commercial opportunities for the space industry and bringing space to non-space sectors.

---

### GSTCE 2026

#### Commercialising Space: Driving Economic Value Across Industries

13<sup>th</sup> - 14<sup>th</sup> May, Marina Bay Sands, Singapore

GSTCE 2026 focuses on how cross-sector collaboration, investment, and innovation make space commercially viable, turning bold ideas into real-world solutions.

It unites corporates, entrepreneurs, investors, researchers, and the public sector to foster economic growth and societal progress

**across both space and non-space industries.**

# Global Attendance at GSTCE 2025

One of the few global platforms that connects the global space industry to Asia

“It was a **global conference** with attendees from all over the world. We had brought our partners from the US, Australia, Japan, New Zealand, and India to this event, and the **connections were incredible.**”

**Duleesha Kulasooriya, AP Innovation Leader, Deloitte**

# Japan As Featured Country At GSTCE 2025

As Featured Country at GSTCE2025, Japan leveraged multiple platforms to provide a 360-degree view of their leadership in space

**Featured country keynote** by the President of JAXA highlighted Japan's space initiatives and the opportunities for international collaboration

**Innovation & Space Financing Workshop** on cross-border investment, co-creation, and startup funding attended by 100+ international industry players

**Panel discussions** on carbon markets, climate monitoring, generative AI, space robotics, space financing – key elements to Japan's space agenda

# Why Participate In GSTCE 2026

## Unlock APAC's Space + Cross-Sector Growth Lanes

GSTCE bridges global launch, satellite and data players with high-demand verticals – maritime, agritech, fintech, climate-tech – so you can spot where your tech, talent or capital fits next and who's ready to partner.

## Meet Decision-Makers Who Sign Cheques

Pre-matched schedules place you face-to-face with C-suite buyers, leading VCs and select public-sector programme owners – compressing long prospecting cycles into two high-impact days.

## Own the Main Stage and Workshops

Deliver keynotes, join high-impact panels and lead practitioner workshops alongside global space companies and rising APAC champions – elevating your credibility and engaging audiences that matter.

## Demo, Deal, Deploy – Faster

Interactive showcase zones put your hardware or data solutions directly in front of buyers and investors, turning live demos into signed contracts in record time.

**NEW**

## SEA Pavilion – Fast-Tracking Southeast Asia Access

### SEA Pavilion at GSTCE 2026 – Opening New Market Opportunities for Participating Companies

A first at GSTCE, there will be a dedicated pavilion at the next edition to put the spotlight on emerging space companies across SEA

A gateway for global exhibitors, the pavilion connects you directly with the SEA ecosystem – no multi-city road-show required.

One-stop connection to the region’s most promising space solutions – hardware, data and downstream applications.

Matchmaking that moves the needle. Pre-event pairing and on-floor networking sessions connect worldwide exhibitors to SEA decision-makers, turning introductions into action.

Presented by:

**Deloitte.**

“I love GSTCE 2025; it is one of my favourite conferences. It is quite an intimate show and a **great place for networking** and conversations. The conference has been good. **GSTCE 2025 is a focal point for Southeast Asia** and serves as a nice **bridge between the East and West** as well.”  
**Tony Holt, Director, International and Civil Space, BAE Systems**

# Singapore Pavilion Returns with First-Ever Presenting Sponsor

## YOUR LAUNCHPAD TO PARTNERSHIPS

### Innovation added in 2024

The Pavilion was created as a direct response to strong industry demand and exhibitor feedback. It provides a one-stop showcase of Singapore's space ecosystem.

### Wide spectrum of innovators

The Pavilion features both established and emerging companies with cutting-edge space technologies—ready for co-development, supply-chain and APAC market-entry partnerships.

### First-ever Presenting Sponsor: TransFingo

On the back of GSTCE 2025's success, long-time supporter TransFingo steps up as the Pavilion's first Presenting Sponsor, underscoring the pavilion's commercial impact.

"We had **supported GSTCE since day one**, and we were pleased to be there again in a **larger space and a better environment** than in previous years. Well done to the team for organising GSTCE 2025."

**Richard Lau, Chief Commercial Officer, Addvalue**
